PURPOSE

The Arizona State Wildfire Qualification Review Committee (Committee) is composed of Local Fire Department/District representatives from across the State of Arizona and of Arizona State Forestry Division personnel. This policy is established not only to clarify which NWCG Wildland and Prescribed Firefighter positions require review by the Committee but also to supplement the PMS 310-1 Wildland Fire Qualification Manual in establishing the minimum criteria required for certification as an Arizona State Forestry Division employee or as personnel operating within a Cooperative Fire Rate Agreement (Cooperators) with the Arizona State Forestry Division.

Prescribed and Wildland Firefighter Positions Reviewed by the Committee

The Committee reviews training files for Arizona State Forestry Division personnel and for personnel from Cooperator agencies. The positions that are reviewed are those that have potential to supervise personnel from agencies other than their own; as well as a few positions that have a wide range of safety factors or influence even though they are not generally supervisory positions. For all positions that require review by the Committee, approval must be obtained to be qualified as a trainee; prior to initiating the task book.

The list below identifies the positions in the wildland fire qualification system flow chart that require review by the committee and those that do not. (Wildland fire qualification system flow chart - PMS 310-1; p172 <http://www.nwcg.gov/pms/docs/pms310-1.pdf>)

Positions Not Reviewed by the Committee

Both the Arizona State Forestry District Manager and the Fire Chief from the Cooperative Fire Department/District have the authority to initiate, certify and approve qualifications for positions that are not reviewed by the Committee (the District Manager and Fire Chief may also identify designee's who can initiate, certify and approve these qualifications). They are required, however, to adhere to the same criteria that are outlined in the PMS 310-1 and in this SOG 804 document. It is the local unit's responsibility to maintain training records for all of their wildland firefighters who do not have qualifications that are reviewed by the Committee.

Submitting a Request for Review to the Committee

When a candidate wishes to pursue a qualification that requires review by the committee, all of the supporting documentation for that position must be submitted to the Arizona State Training Specialist who will present the documentation to the Committee for their review. When submitting a request for review by the Committee, the applicant must include a Committee Request Checklist. The Committee Request Checklists are posted on the Arizona Fire Chief's Association website: www.wildfireaz.com and the Arizona State Forestry website: <https://azsf.az.gov/fire/training/qualifications>. The documentation may either be compiled and submitted via email to the azredcards@azsf.gov or the documentation can be attached to the person's records in IQS. If the documentation is attached in IQS the Committee Request Checklist must still be completed (it can simply be noted on the checklist that the documentation is attached in IQS) and emailed to azaredcards@azsf.gov for the request to be added to the meeting agenda.

Once a person's file has been reviewed and approved by the Committee for any qualification, their Wildland Qualification Card (Red Card) will be issued by the State of Arizona. For Qualification Cards issued by the State of Arizona the documentation for ALL qualifications, whether they are reviewed by the committee or not, must be submitted to the Arizona State Forestry Training Specialist in order for the qualifications to be included on the state issued Red Card and for the qualification to be entered in ROSS. The training file that is reviewed by the Committee is the official record. Arizona State Forestry will maintain the official training record for firefighters who have qualifications that are reviewed by the Committee and who receive their red card from Arizona State Forestry. It is expected that the local unit will maintain duplicate training records for their wildland firefighters who have qualifications that are reviewed by the committee. It is also expected that each firefighter maintain their training records.

After a request to initiate a new taskbook has been approved by the Qualification Review Committee, the Home Agency is authorized to issue the new taskbook. Once the new position taskbook has been issued, a copy of the cover sheet must be submitted to the Arizona Training Specialist. When the Cover sheet is received the new trainee position will be added to the IQS records and to ROSS. A new Red Card will be issued with the updated qualifications.

Supplemental Requirements in this Policy

The Arizona State Wildfire Qualifications Review Committee believes an evaluation of an individual's experience since the beginning of their career in wildland fire management, such as the number, variety and complexity of assignments, and diversity of training evaluators, is very important in determining whether an individual is fully prepared for wildland positions.

This policy is a supplement to the PMS 310-1 and should be referenced as such. It outlines specific supplemental criteria for several positions in the Wildland Fire Qualification System. The requirements included in this policy (SOG 804) provide the minimum standards required for the Committee to consider a request for certification. The Committee will make a recommendation of their findings to the Arizona State Forestry Fire Management Officer (FMO). The Arizona State Forestry Division FMO is the final authority regarding which qualifications will be included in IQS/ROSS and on the State issued Wildland Qualification Cards (Red Cards).

The Committee will adhere to the requirements in the PMS 310-1 and the Federal Wildland Fire Qualifications Supplement to NWCG 310-1 (Supplement) for all positions not included in this policy. Arizona State Forestry will follow the USFS Agency-Specific Requirements in the Supplement with the exception of the ATV position; which will require the ATV Safety Institute Rider Course or Equivalent with re-evaluation every 3 years. The 3 year re-evaluation will go into effect with this 2015 version of the SOG 804. All previously submitted ATV Safety Institute Rider Course Cards or Equivalent will be given historical recognition at that time and will be required to complete the re-evaluation in 3 years' time.

The remainder of this document is organized similarly to the PMS 310-1. The requirements for positions not included in this policy can be located in the PMS 310-1. (<http://www.nwcg.gov/pms/docs/pms310-1.pdf>)

OPERATIONS POSITIONS

ADVANCED FALLER (FAL1)

Required Training

RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

M-410 Facilitative Instructor
S-131 Firefighter Type 1
S-133 Look Up, Look Down, Look Around
S-211 Portable Pumps & Water Use
S-219 Firing Operations

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required to initiate FAL1 Task Book

Satisfactory performance as an Intermediate Faller (FAL2)
Current in CPR/First Aid Certification or EMT (Basic, Advanced or Paramedic)
Recommendation to initiate from a currently qualified FAL1

Experience & FAL1 Task Book Completion Requirements

*Completion and Certification of PTB as an Advanced Faller (FAL1) on a wildland incident

2 taskbook evaluations recommending certification from currently qualified Advanced Faller
2 separate incidents

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

*Only the use of the approved NWCG PTB for the FAL1 position will be accepted.

INTERMEDIATE FALLER (FAL2)

Required Training

RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

M-410 Facilitative Instructor
S-131 Firefighter Type 1
S-133 Look Up, Look Down, Look Around
S-211 Portable Pumps & Water Use
S-219 Firing Operations

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required to initiate FAL2 Task Book

Satisfactory performance as a Basic Faller (FAL3)
Current in CPR/First Aid Certification or EMT (Basic, Advanced or Paramedic)
Recommendation to Initiate from a currently qualified FAL2

Experience & FAL2 Task Book Completion Requirements

*Completion and Certification of PTB as an Intermediate Faller (FAL2) on a wildland incident.

Final evaluation must be completed by an Advanced Faller (FAL1).

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

*Only the use of the approved NWCG PTB for the FAL2 position will be accepted.

BASIC FALLER (FAL3)

Required Training

S-212 Wildland Fire Chain Saws
RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

S-131 Firefighter Type 1
S-133 Look Up, Look Down, Look Around
S-211 Portable Pumps & Water Use
S-219 Firing Operations

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required to initiate FAL3 Task Book

Satisfactory performance as a Firefighter Type 2
Current in CPR/First Aid Certification or EMT (Basic, Advanced or Paramedic)

Experience & FAL3 Task Book Completion Requirements

*Completion and Certification of PTB as a Basic Faller (FAL3)

Final evaluation must be completed by an Intermediate Faller (FAL2) or an Advanced Faller (FAL1).

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

*Only the use of the approved NWCG PTB for the FAL3 position will be accepted.

FIREFIGHTER TYPE 1 (FFT1)

Required Training

S-131 Firefighter Type 1
S-133 Look Up, Look Down, Look Around
RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

S-211 Portable Pumps & Water Use
S-212 Wildland Fire Chain Saws
S-219 Firing Operations

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required to initiate FFT1 Task Book

10 Operational Periods as a **qualified FFT2**

Experience & FFT1 Task Book Completion Requirements

10 Operational Periods as **FFT1 trainee**
3 different taskbook evaluators
3 separate incidents

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

Operational Period must be at least 10 hours on an incident
2 Operational Periods from work on a controlled/prescribed burn project will be accepted
2 Operational Periods from IA response & miscellaneous A/B size incidents (that add up to an Operational Period when combined) will be accepted

CREW BOSS, Single Resource (CRWB)

Required Training

ICS-200 ICS for Single Resources and Initial Action Incidents
S-230 Crew Boss (Single Resource)
S-290 Intermediate Wildland Fire Behavior (Classroom version recommended)
RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

L-280 Followership to Leadership
S-219 Firing Operations
S-260 Interagency Incident Business Management (Classroom version recommended)
S-270 Basic Air Operations

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required to initiate CRWB Task Book

6 Operational Periods as a **qualified FFT1**

Experience & CRWB Task Book Completion Requirements

10 Operational Periods as **CRWB trainee**

3 different taskbook evaluators

3 separate incidents

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident

2 Operational Periods from work on a controlled/prescribed burn project will be accepted

2 Operational Periods from IA response & miscellaneous A/B size incidents (that add up to an Operational Period when combined) will be accepted

The Committee recommends completing S-219 & S-260 before requesting the CRWB qualification.

3 separate incidents (2 must be uncontained incidents)

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident

2 Operational Periods from work on a controlled/prescribed burn project will be accepted

[Return to Table of Contents](#)

INCIDENT COMMANDER TYPE 4 (ICT4)

Required Training

S-200 Initial Attack Incident Commander
RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

S-215 Fire Operations in the Wildland/Urban Interface
S-219 Firing Operations

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required prior to initiating ICT4 Task Book

8 Operational Periods as a **qualified Single Resource Boss**

Experience & ICT4 Task Book Completion Requirements

6 Operational Periods as an **ICT4 trainee**
3 different taskbook evaluators (2 must be Type 4 wildland incidents)
3 separate incidents

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident

For SRB requirement - 2 Operational Periods from work on a controlled/prescribed burn project will be accepted
2 Operational Periods from IA response & miscellaneous A/B size incidents that add up to an Operational Period when combined will be accepted

For ICT4 trainee - 3 Operational Periods from a Type 4 equivalent Rx or All-Risk Incident that add up to an Operational Period when combined will be accepted. At least 3 Operational Periods must be from work during Type 4 Wildland Incidents.

INCIDENT COMMANDER TYPE 5 (ICT5)

Required Training

ICS-200 ICS for Single Resources and Initial Action Incidents
S-131 Firefighter Type 1
S-133 Look Up, Look Down, Look Around
RT-130 Annual Fireline Safety Refresher

Training Which Supports Development of Knowledge and Skills

S-211 Portable Pumps & Water Use
S-212 Wildland Fire Chain Saws

Fitness Rating

Arduous

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required prior to initiating ICT5 Task Book

10 Operational Periods as a **qualified FFT2**

Experience & ICT5 Task Book Completion Requirements

2 different taskbook evaluators
2 separate Type 5 wildland incidents

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident
2 Operational Periods from work on a controlled/prescribed burn project will be accepted
2 Operational Periods from IA response & miscellaneous A/B size incidents that add up to an Operational Period when combined will be accepted

NOTE: The ICT5 Position is not prerequisite to the Incident Commander Type 4 (ICT4) position.

PLANNING

PLANNING SECTION CHIEF TYPE 2 (PSC2)

Required Training

ICS-400 Advanced ICS

S-420 Command and General Staff (or L-481 Advanced Leadership for Command and General Staff)

S-440 Planning Section Chief (course is required if utilizing the OSC2, LSC2, or SOF2 pathway)

Training Which Supports Development of Knowledge and Skills

L-480 Organizational Leadership in the Fire Service

S-440 Planning Section Chief

Fitness Rating

None

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required prior to initiating PSC2 Task Book

6 Operational Periods as a **qualified SITL, RESL, PSC3, OSC2, LSC2, or SOF2.**

Experience & PSC2 Task Book Completion Requirements

Completion and Certification of PTB as a Planning Section Chief Type 2

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident

[Return to Table of Contents](#)

PLANNING SECTION CHIEF TYPE 3 (PSC3)

Required Training

ICS-100 Introduction to ICS
ICS-200 ICS for Single Resources and Initial Action Incidents
ICS-300 Intermediate ICS for Expanding Incidents
ICS-400 Advanced ICS
IS-700 NIMS: An Introduction
IS-800b NRF: An Introduction

Training Which Supports Development of Knowledge and Skills

L-381 Incident Leadership

Fitness Rating

None

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Satisfactory performance as a **qualified SITL, RESL or ICT3**

OR

Completion and Certification of PTB as a PSC3

Experience required prior to initiating PSC3 Task Book

None

Experience & PSC3 Task Book Completion Requirements

Completion and Certification of PTB as a Planning Section Chief Type 3

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident

LOGISTICS

LOGISTICS SECTION CHIEF TYPE 2 (LSC2)

Required Training

ICS-400 Advanced ICS

S-420 Command and General Staff (or L-481 Advanced Leadership for Command and General Staff)

E/L967 Logistics Section Chief (course is required if utilizing the OSC2, PSC2, or SOF2 pathway)

Training Which Supports Development of Knowledge and Skills

L-480 Organizational Leadership in the Fire Service

E/L967 All-Hazards Position Specific Logistics Section Chief

Fitness Rating

None

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Experience required prior to initiating LSC2 Task Book

6 Operational Periods as a **qualified FACI, GSUL, SPUL, LSC3, OSC2, PSC2, or SOF2.**

Experience & LSC2 Task Book Completion Requirements

Completion and Certification of PTB as a Logistics Section Chief Type 2

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident

[Return to Table of Contents](#)

LOGISTICS SECTION CHIEF TYPE 3 (LSC3)

Required Training

ICS-100 Introduction to ICS
ICS-200 ICS for Single Resources and Initial Action Incidents
ICS-300 Intermediate ICS for Expanding Incidents
ICS-400 Advanced ICS
IS-700 NIMS: An Introduction
IS-800b NRF: An Introduction

Training Which Supports Development of Knowledge and Skills

L-381 Incident Leadership

Fitness Rating

None

Experience requirements: Experience must be obtained on multiple incidents with varied management levels, a mixture of fuel types, and where suppression activity is taking place.

Satisfactory performance as a **qualified SPUL, FACL, GSUL or ICT3**

OR

Completion and Certification of PTB as a LSC3

Experience required prior to initiating LSC3 Task Book

None

Experience & LSC3 Task Book Completion Requirements

Completion and Certification of PTB as a Logistics Section Chief Type 3

NOTE: All Evaluators on wildland incidents must be qualified in the position they are evaluating.

NOTE: Applicant must submit an Incident Personnel Rating (ICS 225) or Crew Performance Rating (ICS 224) for all Type 3, 2, and 1 Incident Assignments to receive credit for the assignment.

Operational Period must be at least 10 hours on an incident
