

Arizona State Forestry – Invasive Plant Grant Program  
Score Card

---

Grant Applicant: \_\_\_\_\_

Score 1-10

1. Is the problem and project area clearly identified? (noxious/invasive plants to be treated, location, acres to be treated, etc.)
2. Is the project methodology clearly identified and well thought out? (project strategy, who is performing the work and how, integrated weed management approach, etc.)
3. How well does the project meet the grant objectives?
4. Does the project clearly demonstrate measurable objectives? (# of acres treated, cost per acre, etc.)
5. Is the proposed project achievable in the requested time frame and budget?
6. Does the project show collaborative elements and partners? (CWMA's, partner names, etc.)
7. Does the project demonstrate longevity and maintenance of the site after treatment? (monitoring, tracking of effectiveness, etc.)
8. Does the project area have a current invasive/noxious plant management plan? (stewardship/operations plan, etc.)  YES  NO   
*If yes, add 1 point to total score.*
